

Project Initialization and Planning Phase

Date	25 June 2026
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But (rainfall)	Because	Which makes me feel
PS-1	A local farmer or agricultural production planner.	Maximize crop yields and optimize soil fertilizer management.	Traditional cultivation choices rely heavily on guesswork rather than empirical data.	Soil metrics (N, P, K, pH, require modeling to predict optimal crops.	Anxious about potential crop failure and inefficient resource spending.
